LINKEDIN: @GSANTOSDASILVA

SUMMARY OF QUALIFICATIONS

Proficiency in software development with a focus on Java, Spring, Node (JavaScript), TypeScript, Angular, and solid knowledge of SQL (including Azure SQL and Snowflake), Python, and API development. Significant experience in database management, data integration, and using .NET and C#. Ability to develop and maintain web applications using Angular, design and manage SQL databases, create and maintain APIs with Python, and collaborate with cross-functional teams to deliver new features. Familiarity with version control systems such as GitHub and DevOps practices with CI/CD pipelines. Strong proficiency in Angular for front-end development, and hands-on experience with Azure Data Factory for data integration and transformation tasks. Knowledge of other front-end frameworks such as React and Vue.js. Advanced English with international experience living for 6 months in Toronto, as well as familiarity with cloud platforms such as Azure and AWS.
